

## BOWHEAD INNOVATIVE PRODUCTS AND SOLUTIONS

### Moving Programs From Concept To Reality

*Bowhead Innovative Products and Solutions, LLC (BIPS) is an Alaska Native 8(a) Small Disadvantaged Business that specializes in the materiel sourcing of unique products and providing innovative, technical solutions to meet customer requirements.*

BIPS works with 'End Users' and 'Top Tier Suppliers' to identify, evaluate, then add new products and services to our overall offerings, to satisfy the full range of products. BIPS is the 'line-of-business' that helps customers find the right hardware and software solutions to provide the optimum products and services. BIPS' expert staff frees customers from having to perform product evaluations and deal directly with the vendors. As an independent advocate, BIPS is able to survey the marketplace to find the best fit within available budgets to deliver solutions to procure, install, and provide ongoing support.
