

BOWHEAD SUPPORT GROUP

Base and Support Operations Expertise

Bowhead
A UIC Alaska Native Corporation

Bowhead Support Group, LLC (BSG) provides a full spectrum of logistics and maintenance support to our customers through a network of highly qualified and experienced leaders at the strategic and tactical levels.

BSG subscribes to the Six Sigma philosophy and continually seeks to improve customer satisfaction through a perpetual process evaluation and refinement of all of our services.

We offer a wide array of logistics and maintenance services to support today's civil and military present and emerging requirements and we are committed to providing a force multiplier style of service without a budget multiplier effect.

BSG listens to the customer requirements and develops a solution that meets the scope, budget, and timeline needs. A continuous evaluation of the customer needs prevents creep in the scope, budget, and timeline execution. BSG's small business customer service coupled with its large business experience makes it both easy to work with, and cost competitive in a time of shrinking budgets and expanding requirements.

Services

- Program and administrative support
- Maintenance/supply activities support (including warehouse operations)
- Food logistics support operations
- Training
