* = required field

Read the information about the small deposit that is made to verify the account and click Update Bank Account.

Update Bank Account

Further action is required to activate this bank account. A deposit will be made to the account in the next 1-3 business days. Once you confirm the deposited amount, the account will be activated and available for use. You can confirm the deposited amount from this site by accessing the Bank Accounts page or by clicking on the link in the Action Required section that will appear on your home page.

Answer your security question to verify the change and the banking information will be updated.

AUTHENTICATION

In order to save your bank account changes, you must answer the following security question.

Security Question:	What city were you born in?
Answer:*	<input type="text"/>

* = required field

Once HSA Bank has made the deposit to the account to verify the account information you will need to login and confirm the amount that was deposited.
