

VSP Laser VisionCareSM Program

More than 700,000 people undergo laser vision surgery annually in the United States, making it one of the most common elective surgeries¹. Laser vision surgery only takes minutes per eye and can deliver fantastic benefits, like: immediate vision improvement, freedom from dependency on corrective eyewear, the ability to pursue new activities without eyewear restrictions, and ultimately the satisfaction of clearer vision.

The VSP Laser VisionCare Program provides members with discounts through VSP-contracted laser facilities. Discounts average 15-20% off or 5% off a promotional offer for laser vision surgery, including PRK, LASIK, and Custom LASIK². And, because the VSP Laser VisionCare Program is complimentary with most VSP plans, your members can save hundreds of dollars at no additional cost to you.

Laser Vision Surgery Overview

- | | |
|-----------------------------------|---|
| Laser Vision Surgeries | <ul style="list-style-type: none">• There are several laser vision surgery treatments available; the surgeon will determine which option will provide the best outcome for the member |
| Laser Vision Surgery Facts | <ul style="list-style-type: none">• There are more than 63 million potential candidates for laser vision surgery in the United States³• LASIK patients are trending younger, the average age is between 25 and 34⁴• 95% of patients reported improved vision after their laser vision surgery¹• 90% of patients report vision of 20/40 or better after LASIK surgery⁵• 85% of patients reported their quality of life improved after their laser vision surgery¹ |

Laser Vision Surgery

- Surgery performed by a participating surgeon at a VSP Laser VisionCare Facility
- The surgeon will determine which procedure will provide the best possible outcome for the member
- The member pays the facility either the discounted rate or the not-to-exceed amount, whichever is less. The member will never pay more than the following not-to-exceed amounts:
 - \$1500 per eye for PRK
 - \$1800 per eye for LASIK
 - \$2300 per eye for Custom LASIK

Enhancement Follow-up Surgery⁷

- Although uncommon, surgery does not always correct vision to the doctor's and member's satisfaction. If the member and the doctor agree that it's necessary, an enhancement surgery and follow-up care may be performed at no additional cost to the member.

6 The screening is complimentary; however, if the member has a pre-operative exam and does not proceed with the surgery, the VSP Preferred Provider may charge the member a discounted exam fee up to \$100.

7 Each VSP-contracted laser facility's enhancement surgery policy can vary. No-cost enhancements are typically performed within the first year, but some centers offer commitments as long as the member's lifetime.
