

BOWHEAD PROFESSIONAL AND TECHNICAL SOLUTIONS

Bowhead Professional and Technical Solutions, LLC (BPTS) is an Alaska Native 8(a) Small Disadvantaged Business that provides a unique range of Engineering, Management, Analytical, and Technical services to the federal, state, and local governments, and private industry.

Key Capabilities

- System of Systems Engineering (SoSE)
- Software Engineering
- Computer Engineering
- Cyber Security Engineering
- Foreign Military Sales (FMS)
- Logistics Engineering
- Systems Engineering & Technical Assistance (SETA)
- System Architecture Engineering
- System Integration Engineering
- System Interoperability Engineering
- System Test Engineering
- System Field Support
- System Training
- System Sustainment Support Services

BPTS also provides Advisory and Assistance Support Services and Thought Leadership in all areas of the DoD Acquisition Life Cycle from concept development through product fielding and sustainment. This includes providing the high level analysis and planning required to execute Systems Engineering and Software Engineering functions across the Total Life Cycle of products/systems.

As the government contracting and technical resources experience greater workloads with shrinking staff resources, providing “Total-Solutions” models that work is attractive to our current customers and potential customers. In addition to our multiple engineering service areas, BPTS also provides a unique range of Management, Analytical, and Technical services to the federal, state, and local governments, and private industry.
