

# LOGISTICS AND MARINE

## Maintenance, Logistics, Installation, and Marine Support

*Bowhead's logistics and marine capabilities encompass most aspects involved with maintenance, logistics, installation, and marine support services.*

The Bowhead family of companies provides defense, government, and private sector customers with expertise in areas such as program management; systems engineering and integration; weapon systems acquisition management; maintenance, supply, and transportation support; software development; Information Technology (IT) services support; risk management; training and simulation support; products procurement; administrative services support; and Foreign Military Sales (FMS).

Our Logistics and Marine Group's primary goal is to help our government clients achieve their missions through quality and customer satisfaction. We employ and manage our teams of highly qualified personnel, who are experts in the following specialities:
